

Plate Loaded 2.0

Exigo® ISO Standing Chest Press

SKU: PL-3016

Made in the UK

Proven Biomechanics

ISO/EN Certified

Lifetime Warranty

The Exigo® Plate Loaded 2.0 ISO Standing Chest Press is engineered to deliver powerful pressing with greater body control while also engaging a wider muscle range. Designed and manufactured in the UK from a heavy-duty combination of 80mm and 70mm steel box, it offers long-term durability for high-performance and commercial facilities.

This machine features a large platform with anti-slip footplates for secure footing, and a 7-position adjustable backrest for optimal user positioning. Large ergonomic handles with multiple grip points offer a comfortable and versatile hold for users of all sizes. Independent arms ensure balanced development and allow each side of the body to work independently, while dual band pegs provide dynamic resistance options.

Standard Colour Options (More colours available on request)
