

Plate Loaded 2.0

Exigo® ISO Pectoral Fly

SKU: PL-3018

- ✓ Designed & manufactured in our UK factory
- ✓ Conforms with ISO/CEN equipment standards
- ✓ Commercial use structural lifetime warranty

The Exigo® Plate Loaded 2.0 ISO Pectoral Fly is engineered to deliver precise chest isolation with a superior range of motion and maximum comfort. Designed and manufactured in the UK from a heavy-duty combination of 80mm and 70mm steel box section, it offers unmatched durability for high-performance and commercial training environments.

The Exigo® Pec Fly features a spring-assisted adjustable seat with 9 positions for perfect alignment, while its large wingspan allows for a greater and natural range of motion with unrestricted movement. Independent arms enable each side of the body to work separately to promote balanced muscle development, and oversized handles provide multiple grip options to target the pecs from different angles. Integrated band pegs offer dynamic resistance, allowing users to incorporate bands for progressive overload or assisted training.

Standard Colour Options

Features

Adjustable Seat

Spring-assisted adjustable seat with 9 positions for precise alignment and quick setup.
