

Plate Loaded 2.0

Exigo® ISO Shoulder Press

SKU: PL-3020

- ✓ Designed & manufactured in our UK factory
- ✓ Conforms with ISO/CEN equipment standards
- ✓ Commercial use structural lifetime warranty

The Exigo® Plate Loaded 2.0 ISO Shoulder Press has been expertly designed in collaboration with leading fitness professionals to deliver superior biomechanics, accurately targeting the shoulders with precision and control.

Engineered for versatility, the Exigo® Shoulder Press features a spring-assisted adjustable seat with 9 positions and an adjustable backrest with 7 positions to ensure optimal positioning for every user. Ergonomic handles allow grip variation for comfortable alignment and multiple pressing angles to target the shoulders more effectively. Dual band pegs offer dynamic resistance options to support progressive training methods such as explosive power and assisted lifts. Independent arms promote balanced strength development and ensure a natural path of movement that mimics free-weight training with added control.

Manufactured in our UK factory using a combination of 80mm and 70mm box section, this shoulder press is built for stability and long-term durability in any high-use training environment.

Standard Colour Options (More colours available on request)

Features

Adjustable Seat

Spring-assisted adjustable seat with 9 positions for precise alignment and quick setup.
