

Plate Loaded 2.0

Exigo® ISO Leg Extension

SKU: PL-3105

- ✓ Designed & manufactured in our UK factory
- ✓ Conforms with ISO/CEN equipment standards
- ✓ Commercial use structural lifetime warranty

The Exigo® Plate Loaded 2.0 ISO Leg Extension is designed to build the quadriceps and strengthen the knee extension, making it an essential tool for lower body development. Manufactured in the UK from heavy-duty steel and premium components, it is made to withstand the demands of commercial gyms.

The Exigo® ISO Leg Extension offers independent leg training for balanced strength development and features a 7-position adjustable backrest, angled for optimal alignment and to keep the user stable throughout the exercise. The self-adjusting rollers automatically conform to the user's legs for enhanced comfort and consistent contact. Handles are positioned on either side of the seat to offer additional support and stability, while helping the user to maintain the correct posture. Complete with band pegs for variable resistance, and high impact feet that include hidden floor fixing points.
