

Plate Loaded 2.0

Exigo® Belt Squat

SKU: PL-3141

- ✓ Designed & manufactured in our UK factory
- ✓ Conforms with ISO/CEN equipment standards
- ✓ Commercial use structural lifetime warranty

The Exigo® Plate Loaded 2.0 Belt Squat is engineered to unleash lower body strength while minimising spinal stress—making it the perfect solution for heavy leg training. Designed for athletes, rehab environments, and high-performance gyms alike, it delivers biomechanically sound, joint-friendly squats with maximum efficiency.

Featuring a large platform with anti-slip footplates, a stainless steel hook with 2 positions for attaching a belt, and oversized handles for support and stability, this machine ensures secure and comfortable positioning throughout the lift. Dual band pegs provide the option for variable resistance—perfect for explosive power training, progressive overload, or accommodating resistance techniques.

Manufactured in the UK using a robust combination of 70mm and 80mm box section steel, this machine is built to withstand the demands of elite training environments.

Compact, powerful, and built to last—the Belt Squat is a must-have for serious lower-body development.

Colour Options

Features

Large Platform

Features a large platform with anti-slip footplates to provide a secure and stable base.

Long-Term Durability

Key components are made from stainless steel for resistance to rust, wear, and heavy use, providing long-term durability.

Exercise Placard

Complete with an easy to understand instructional placard with targeted muscles.

Oversized Handles

Equipped with oversized handles to offer a comfortable and secure grip for all users.

Dynamic Resistance

Equipped with dual band pegs for varied resistance and advanced training methods.

Made in Britain

Designed and manufactured in Great Britain for superior build quality.

Dual Belt Positions

Stainless steel hook with 2 belt positions, allowing users to customise their setup for comfort and performance.

Fixing Points

High impact ABS PA-757 Plastic feet with concealed floor fixing points.
